Stainless Steel Welder Fabricator

Description:

We currently have a vacancy for a stainless steel welder fabricator, to work at our manufacturing facility based in Athy Co. Kildare. Working as part of the manufacturing team you will be responsible for manufacturing a wide range of components depending on customer specifications. You will be responsible for completing the welding process confidently using drawings and fixtures to build units to the required specifications. Experience in stainless steel welding and fabrication is essential.

The successful candidate will:

- Have good practical skills and be highly motivated.
- Have excellent communication and interpersonal skills.
- Be confident to work on own initiative as well as being a team player.
- Be flexible to work overtime.
- Have a background in engineering, agriculture or the dairy industry would be an advantage.
- Be flexible to work varied roles in different departments if required.
- Have pride in own workmanship and maintain a high standard.
- Be organised and able to work well under pressure.
- Be a team player with the ability to work with people and give technical advice where required.
- Safe Pass Certification
